### STST8002 The New Power Politics of Asia

Course  
Convenor:  
Professor  
Hugh White

Asia is in the throes of a major power-political revolution, as a radical change in the distribution of wealth and power overtakes the old order and forces the creation of a new one. Explore three areas of the new power politics of Asia: the nature of power politics as a mode of international relations; the power politics of Asia today, what is happening and where it is going; and concepts that can help us better understand power politics.

### STST8013 China's Defence and Strategic Challenges

Course  
Convenor:  
Dr Amy King

China's re-emergence as a significant economic and political actor is a geopolitical development of the first order. It has been a century since the international system has had to accommodate a wholly new major power with the potential to rival even the weight of the US. Assess the trajectory of China's current rise to prominence and its probable implications, as well as China's political, economic and military policies and capabilities, and the development of China's relations with other key actors.
